

Corrigenda for M. H. M. Hulton (ed), *Coventry and its People in the 1520s*, Dugdale Society vol. 38, 1999.

Work by Professor Judith Bennett, assisted by Chris Whittick (see https://cdr.lib.unc.edu/concern/data_sets/hd76s919f) has identified that a number of corrections need to be made to the published edition. In particular the use of ultra-violet light on the 1524 Lay Subsidy has enabled the names unreadable by Mary Hulton to be recovered. A few names have also been found to be omitted from the texts of the other documents included in the edition. The corrections are listed below, identified by page and Hulton sequence number.

Lay Subsidy 1524

Insert or correct the following names. A few corrections to the later text columns have also been identified for these entries.
